

2010-2012 POLARIS RANGER

Skyjacker has developed new products for the UTV market with some new items for the 10-12 Polaris Ranger Crew. The first is a Forward A-Arm Kit that maintains OEM suspension travel and retains ball joints and bushings. Also, it allows you to use 30" diameter tires without rubbing. A-arms are made out of heavy wall DOM tubing and stronger than factory A-arms. Steel brackets included and easy bolt on installation. Another new item is the winch mounting kit that mounts to the rear frame and allows you to retain the use of the receiver hitch. Complete bolt-on kit.

FORWARD A-ARM KIT

FAA301

BENEFITS

- Maintains OEM Suspension Travel
- Retains OEM ball joints and Bushings
- Maintains OEM Suspension Geometry
- Maintains OEM Suspension Geometry

KEY FEATURES
